REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 96 and 100 are patentable over the prior art patents and printed publications because of the specific method for printing an image from a digital image data comprising the steps of selecting a format from a set of available layout formats, correlating a grouping of exposure elements on one or plural spatial light modulators with the selected format, modulating the grouping of exposure elements based on the digital image data, directing an exposure beam toward the spatial light modulator to provide an imaging beam to expose the photosensitive medium while controlling a temperature profile of the spatial light modulator. The combined limitations as claimed are not taught by the prior art of record considered alone or in combination.

Claims 97-99 and 101-102 are allowed because they are directly or indirectly dependent from claims 96 and 100 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
